As we understand that the Project is a step-by- step learning environment that closely simulates the class-room and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to.

- ✓ Practice step by step i.e. ladder approach.
- ✓ Build a larger more robust application.
- ✓ Usage of certain utilities in applications designed by user.
- ✓ Single program to unified code leading to a complete application.
- ✓ Learn implementation of concepts in a phased manner.
- ✓ Enhance skills and add value.
- ✓ Work on real life projects.
- ✓ Give a real life scenario and help to create applications more complicated and useful.
- ✓ Mentoring through email support.

We would like to send a great thank to our professor, Mr Le Thanh Nhan and others student for the adorable supports during the time in project.

Beside several mistakes we had made in the project, we hope to have more opportunities to widen our knowledge in web developing world.

We also thank you so much for your information and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning any thing as much as we can to be more successful in the future.

Your Sincerely,

Team Group 04.

# Synopsis

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us front-end or back-end technology but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of Semester II, as well as special subjects those are Java and PHP. These programs should be done in the Lab sessions with assistance of the faculty if required.

The website (in this project) is a world that brings everything about the potteries and crockeries into your experience.

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

# **Review 01**

<b>Design Plan:</b> The Coffee & Cake	<b>Document Name:</b> Problem Definition	<b>SWD/Form</b> No.01/PD/Ver1.0
<b>Effective Date:</b> 21/ 03/ 2023	<b>Version</b> 1.0	<b>Page No:</b> 1 of 38

## Problem Definition

The Coffee & Cake is a simple web application designed to help users order and pay for coffee and pastries online. The app allows users to search for products by category and view product details, including price and description. Users can place orders and make payments online using popular payment methods such as credit cards or e-wallets. After placing an order, users will receive a confirmation notification about their order. The app administrator can manage products, orders, and customer information. The goal of the application is to provide a simple and convenient experience for users to order online and to help administrators manage their business more easily.

Based on the needs outlined in the project, we have designed an application that will provide the following features and functions:

- ✓ Users can view products by name or description
- ✓ Users can place orders for products from the page.
- ✓ Allows users to add products to their cart and place orders by entering delivery address information and selecting payment methods.
- ✓ Users can change the quantity of products or remove products from the cart.
- ✓ Users can view history order.

An Admin Control Panel (ACP) that support about management system:

- ✓ Administrators the ability to add, deactivate, update product information quickly and accurately
- ✓ Administrators the ability to manage
- ✓ Administrators the ability report statistics.

<b>Effective Date:</b> 21/ 03/ 2023	<b>Version</b> 1.0	<b>Page No:</b> 2 of 38

### The Role of User and Admin:

#### 1. User:

- ✓ Can register as a member and manage personal account.
- ✓ Can view and buy products.
- ✓ Can view their orders.

#### 2. Administrator

- ✓ Can add / edit / deactivate products and categories.
- ✓ Can view customer's information.
- ✓ Can view all orders and approve orders.
- ✓ Can view report statistics.

# Customer Requirements Specifications

## User:

### Input:

- Member data for sign in.
- Add product to cart

### Process:

- Process user's orders.
- Process information login user's

### Output:

- Notification of successful registration / failure.
- Notification of successful making order.
- Order's information.

## Webmaster:

### Input:

- Administrator login data.
- Product and category information to add / edit.
- Order information to be search

### Process:

- Add / edit products.
- Change member account's status.
- Update order status.

### Output:

- Notification to add / edit / deactivate products success / failure.
- Notification to change member account's status.
- Notification to update order's status.

## VI. Cart

The screenshot displays the 'Order Information' page of a web application. At the top, there is a navigation bar with links: Home, Menu, Contact, About, Order, and a shopping cart icon labeled 'Xin Chào Tú' and 'Log Out'. The main content area is titled 'Order Information' and is divided into two columns. The left column, 'Customer Information', shows fields for Username (Tú), Address (123 456), PhoneNumber (0339102382), Email (Tu@gmail.Com), and a Note field. Below these are buttons for 'Edit User's Information' and 'Send Order'. The right column, 'Order List', contains a table with columns: Product Name, Size, Quantity, and Price. The table lists two items: 'Trà Sữa Nha Đam' (M, 5, 2 VNĐ) and 'Trà Sữa Nha Đam' (L, 10, 3 VNĐ), with a 'Total Price: 40 VNĐ'. Below the main content, there are four sections: 'Our Branches' (listing India, USA, France, Africa, Japan), 'Quick Links' (listing Home, About, Menu, Review, Book), 'Contact Info' (listing phone numbers, email, and location), and another 'Contact Info' section (listing social media links for Facebook, Twitter, Instagram, and LinkedIn).
